

THE VOICE BUSINESS
SPEAK WITH CONFIDENCE

Call Center Skills (TCG)

A great course for Call Centre Staff.

Purpose:

This course is designed to develop and foster good individual and team call centre communication skills. In this course you will learn what it takes to deliver great customer service through the phone. You will discover how the way you behave now may be helping or hindering the process of communication. We will take a good look at body language (even when you are sitting down) and how it is used to build rapport and good relationships. You will also listen to your voice and improve how you use it to communicate. Understanding how to get your message across to people in one-on-one personal interviews and telephone conversations will be covered in depth. After this training session you should expect to feel a lot more confident in your ability to communicate.
